M: People don't start bad habits with ~~no~~ reason. As an example I would love to say about teenagers. Teenagers can start smoking because of their friends who is also smoking. Or ~~for~~ to show off in front of their friends.

M: Giving up bad habits is hard and not easy. It is important to have some support from people that close to you. Avoiding bad habits also not easy. ^{one time} In the Reddit I read about people's story "How do I get addicted to bad habits." And most people get addicted when they just think that they gonna try one time and nothing will happen. But eventually they end up getting addicted.

M: I'm good at listening to a music. Music helps to calm down. Mostly I listen to a music when I have a bad day or when I'm really exhausted.
